Rt. did NOT attend group session as he
avoids WR & therapy release approval.
Spoke to his counselor [REDACTED]

[REDACTED] regarding case. He is also being
followed by [REDACTED] @ that CTR.

Rt. will have a consult w/ the psychologist &
psychiatrist this wk. This is supported.

He will hopefully be able to attend
our clinic on 6.14.94 for his group session.

His classification counselor will closely
monitor his progress & inform our

office of any concerns. We will
do likewise. To hopefully see

Rt. in 1 wk..

Pt. reports general status is marginally stable as he prepares to enter Harold Co. Det. CTR. on 6.3.94. He has submitted his W.R. documentation & will meet his counselor on 6.6.94. Rec. he have counselor contact this writer regarding Pt. treatment issues / concerns.

He is concerned for his son who is having emotional problems, in part, due to anxiety associated w. Pt.

forthcoming incarceration.

Pt. presents anxiety & depression.

He denies suicidal ideation currently.

No other problems were presented.

Will continue to follow case

& hopefully see in 7 wk.

Rt. reports general status is marginally stable as he approaches the 6.3.94 incarceration date. He denies inappropriate urges / cognitions. Rt. is concerned for his son who by mother's report is ANXIOUS & will see a psychiatrist. Rt. is also concerned for his welfare in the detention ctr..

Rt. is ANXIOUS & depressed. He denies suicidal ideation. We also reviewed his treatment concerns once incarcerated.

I told Rt. we would assist in any way possible. No other problems were presented. Will continue to follow case.

Pt. reports general status is marginally stable - noted Anxiety & fear association with his forthcoming incarceration (6.3.94) of 18 Mths. He will reside in the Halfed Co. Det. Ctr. & hopefully continue treatment. Pt. will upon release have 5 yrs. probation & treatment. He is depressed & in mild shock. He expressed anger & the court for the "show" they put on during the trial. This is very difficult for Pt. to accept. No other problems were presented. Will continue to follow case.

H. reports general status is marginally stable. He denies inappropriate sexual urges / cognitions. H continues to seek employment w/o success.

His primary concern is sentencing hearing on 5.12.94. H displays depression & anxiety. He currently denies suicidal ideation. H views self as a victim of an uncaring system. He continues to struggle w/ the rejection of wife & friends. H presents remorse, shame & poor self-esteem.

Incarceration for any duration is not seen as necessary for this person; and may well put him on a path that he is not able to travel i.e. major depressive episode & potential suicide risk. Will continue to closely monitor case. To see in 1 wk.

Pt. reports general status is adequately stable. He denies inappropriate urges/cognitions. Pt. continues to seek employment, as the DAP Co. position is not working well. He was only called to work 2 days last wk. Pt. also fears the Green service station position may not be an option. He is frustrated w/ employment issues/opportunities but continues to seek same. Church activity is going well & is a primary support system for this person. His depression varies. Pt. continues to hold concern for his family & is having a difficult time accepting his abuse of the step son. He continues to hold self anger/hate for same. H.W. Re. he wrote letter to wife for discussion. No other problems were presented. To see in 2 wks..

H. is seen for individual therapy session. He reports general status is marginally stable. H. denies inappropriate urges / cognitions of a sexual nature. He continues to seek employment w/ success. H. is using physical & relaxation exercises to reduce stress & H. benefit. Home area is stable.

H. struggles w/ depression. He experiences intermittent suicidal ideation w/o a plan. H. feels he will not presently act on same.

He fears being incarcerated for even a minimal time. H. recounted a recent assault & death @ Harford Co. Det. G.R.E. is frightened this could happen to him.

He views possible incarceration as his "total failure". The hearing is on 5.12.94.

H. believes incarceration would be unfair & w/ another step back. Will continue to closely

INITIAL individual session:

P.I.P.

Pt. is seen for initial individual treatment session. He will continue to attend group therapy q-w as directed @ our CTR.

Pt. had been in treatment @ [REDACTED] from June '93 to Feb. 94. He wanted to see this writer as Pt. felt "a need for a fresh look @ his sexual disorder on a one to one basis".

Pt. reports general status is adequately stable. He denies inappropriate urges/cognitions.

Pt. continues to seek employment w/o success. Family/home area is stable, where his father & a few friends are supportive.

He is mildly to moderately depressed about his current status & noted anxiety about the future. Pt. continues to ruminate over his losses i.e., wife, family, employment, home, community respect & self respect.

He fears incarceration as he awaits his sentencing hearing.

cont.

P2 of P

Most recently H. is frustrated @ not being selected for the Port Authority position. He fears his offense may dissuade employers from hiring him. H. has a natural need to have others believe his remorse & shame.

H. reviewed his inappropriate sexual contact & adopted son [REDACTED] which occurred for 7 MTHS. approx. 12 times. The activity focused on genital touching & fellatio on the victim.

H. continues w/ supervised visitation w/ his son; which is of major importance to him.

H. states he never had sexual thoughts about his son prior to or after the 7 MTH. period.

We also reviewed some factors related to same i.e. isolation, failing marriage, lack of communication w/ adults, general stress, loneliness, inadequacy, impulsivity & confusion.

P.I. & P.B.
Pt. is seen for individual treatment session. He reports general status is adequately stable. Pt. denies inappropriate urges/cognitions. He has secured a part time temporary position in [redacted] and is hopeful about same. Home area is stable, however stressful as Pt. & father await his May 12, 1994 hearing. Pt. completed treatment list & used his personal journal. He reports depression varies. Anxiety is present. Pt. continues to struggle & wife's decision to D/C marriage after 10 yrs. He has not had the opportunity to express his remorse to her which troubles Pt. He did evaluate the poor communication problem & isolation during the marriage as factors related to his behavior. Pt. continues to have difficulty accepting the loss of "lifestyle" & uncertainty of his future.

cent. P.2 of P.2
H. reviewed in detail the 1st instance of sexual abuse - his adopted son. H was 40y/o & the boy was 6y/o. We also evaluated the questionable & inappropriate behaviors which served as a precursor to the abuse.

The H. would take a shower & the boy "to save time in the evening". At times he would feel uncomfortable & same. Especially on the occasions H. had an erection during the washing of his sons genitalia. This activity started 1 1/2 to 2 MTHS. prior to the abuse.

It was soon after that the son asked H. if he could sleep & him "as he didn't want to be in a dark room". The boy then asked H. if he (H.) would perform fellatio. This shocked H. & he initially replied "no ... that was not right". Later that pm he (H.) agreed to the behavior. H. did masturbate as he performed oral sex on the boy.

R. reports general status is marginally stable. He denies inappropriate sexual urges / cognitions. R continues to seek employment w/o success.

His primary concern is sentencing hearing on 5.12.94. R displays depression & anxiety. He currently denies suicidal ideation. R views self as a victim of an uncaring system. He continues to struggle w/ the rejection of wife & friends. R presents remorse, shame & poor self-esteem.

Incarceration for any duration is not seen as necessary for this person; and may well put him on a path that he is not able to travel i.e. major depressive episode & potential suicide risk. Will continue to closely monitor case. To see in 1 wk.

Phyllis Berlin, PhD

H. reports general status is stable. He denies inappropriate urges / cognitions. R continues temporary / part time employment = the DAD Co.. He met = PSI evaluator & I spoke to her RE: his status on 4.11.94. R continues to show concern for his family & difficulty = the loss. No other problems were presented. Will continue to follow case.
